Download Multi-Factor Authentication App

Download the App

Use the QR Code to get the Microsoft Authentication app if you don't already have it.

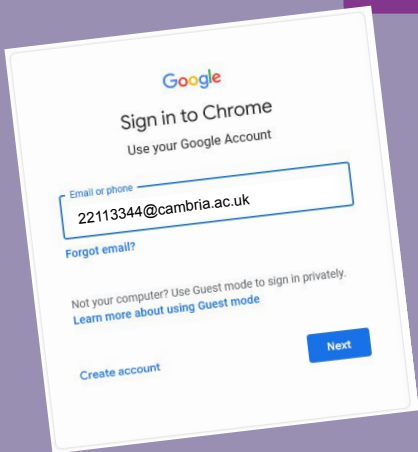

Enrol Your Smartphone (Multi-Factor Authentication)

Sign in to your Coleg Cambria Account

Chromebook: Sign in with your college account.

PC or Mac: Sign in with your college account (Windows), then load Google Chrome and sign in to Google with your college account.

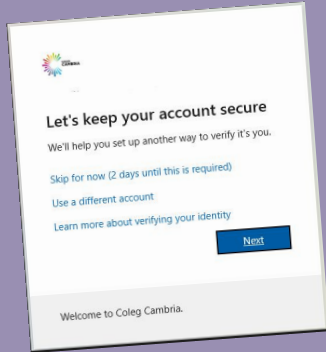

Sign in to Entra

Type in your Coleg Cambria email address and click next.

Enter your Windows password to start the Authenticator registration process.

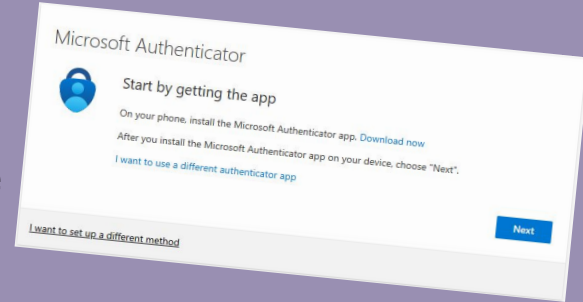

Enrol Your Smartphone (Multi-Factor Authentication)

Set up the Authenticator App

A "Start by getting the app" pop-up will appear. Follow instructions if you do not have the app. If you have the app, click "Next".

Scan the QR Code with Microsoft Authenticator

- You will now see a unique QR Code on the next screen of the Chromebook or PC.
- Open the Microsoft Authenticator App on your smartphone.
- Tap the + icon (usually top right) to add an account.
- Select "**Work or School account**"
- Choose "**Scan QR code**"
- Use your smartphone to scan the QR code displayed on the Chromebook or PC

Enrol Your Smartphone (Multi-Factor Authentication)

On your Mobile Phone Confirm Enrollment

- After a successful QR Code Scan, you will see your Entra account in the Microsoft Authenticator App.
- You will now be asked to do a test. This will display a number on the screen of the PC or Chromebook. When prompted, type this number into the Microsoft Authenticator App on your phone.
- If all has gone well, you will see an Approved Notification on the PC or Chromebook.
- All Done! You can now sign in to your college work.
